EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Richard C. Weisberger on 12/29/2004.

The application has been amended as follows:

As per claim 20:

A financial transaction network for facilitating direct management of financial assets for customers in individual program accounts, comprising:

means allowing a customer to access his individual program account, the individual program account being an account representing an array of accounts that have been individually selected by the customer from the totality of the accounts and including at least one stored value account, ("SVA", which is a nonbank credit account maintained by a merchant for the customer), for a merchant,

a host processor for executing transaction instructions and maintaining individual program account information, said host processor including a database for maintaining individual program account transactions and records,

means for establishing and maintaining a plurality of customer individual program accounts and,

means to support a customers' transactional interchange of said individual program account including access to a stored value account having been pre-authorized by a customer to settle transactions.

means for enabling a customer to utilize the value in the customer's stored value account and instruct the merchant to credit the customer's demand deposit account at a bank with funds from said merchant's demand deposit account.

As per claim 30:

A method of consumer transaction comprising the steps of:

establishing a customer individual program account which includes at least one customer stored value account,

establishing a customer demand deposit account,

establishing a merchant stored value account, ("SVA", which is a nonbank credit account maintained by a merchant for the customer), and

executing a transaction between said consumer and said merchant affecting the account balances in said customer stored value account, said customer demand deposit account and said merchant's stored value account.

enabling a customer to utilize the value in the customer's stored value account and instruct the merchant to credit the customer's demand deposit account at a bank with funds from said merchant's demand deposit account.

Art Unit: 3621

2. The following is an examiner's statement of reasons for allowance:

As per claims 20 and 30, the closest prior art of record, Taylor, U.S. Patent 5,578,808 and Davis, U.S. Patent 6,282,522 taken either individually or in combination with other prior art of record fails to teach or suggest a point of deposit in a unique merchant level account maintained at a commercial institution which is a house account at the merchant level, having a positive balance rendering it a stored value account ("SVA").

The specific allowable feature, which distinguishes the present invention over the prior art is enabling a customer to utilize the value in the customer's stored value account and instruct the merchant to credit the customer's demand deposit account at a bank with funds from said merchant's demand deposit account. In other words, the merchant, be it Sears, Hecht's, etc., distributes the money in the customer's account to other institutions per the customer's request. The art discloses refund of excess funds in a merchant's account but not the active use of a merchant's account to do inter-banking transactions.

Claims 21 - 28 and 31-38 are dependent upon Claims 20 and 30 respectively and thus have all the limitations of claims 20 and 39 and are allowable for that reason.

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

4. Pieterse et al. U.S. Patent 5,907,832- METHOD OF DEBITING AN ELECTRONIC PAYMENT MEANS.

5. Risafi et al. U.S. Patent 6,473,500 B1- SYSTEM AND METHOD FOR USING A PREPAID CARD.
6. Mandelbaum et al. U.S. Patent 5,544,246 A-SMARTCARD ADAPTED FOR A PLURALITY OF SERVICE PROVIDERS AND FOR A REMOTE INSTALLATION OF SAME.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
